

Flextras AutoCompleteComboBox 2 Release Notes

Name: AutoCompleteComboBox

Class: com.flextras.autoCompleteComboBox.AutoCompleteComboBox
spark.flextras.autoCompleteComboBox.AutoCompleteComboBoxLite

Thanks:

Thanks for being a supporter of the Flextras AutoComplete Component.

Be sure to check out our web site for more samples, all with source code
<https://www.flextras.com/index.cfm?event=ProductHome&ProductID=19> .

In the Zip:

Free Edition Includes:

- **asdoc-output:**
 - This is the full API documentation of the MX component. Open the Index.html file in this directory.
- **asdoc-output-Spark:**
 - This is the full API documentation of the Spark version of our AutoCompleteComboBox. Open the index.html file in this directory to view the documentation.
- **AutoCompleteComboBoxAPIExplorer_FlexBuilderProjectArchive.zip**
 - This is a Flash Builder 4 Project Archive for our API Explorer Sample. It allows you to experiment with the different APIs associated with the project. The code it generates can be cut and paste into an Application file and compiled.
- **AutoCompleteComboBoxFirstOnly_FlexBuilderProjectArchive.zip**
 - This is a Flash Builder 4 Archive for a project that demonstrates how to use a custom filter function to control the criteria for filtering the list. This implementation uses a filterFunction that only returns true if your input text matches the beginning of the item.
- **AutoCompleteComboBoxCustomRenderer_FlexBuilderProjectArchive.zip**
 - This is a Flash Builder 4 Project Archive for a project that demonstrates how to use a custom itemRenderer to customize the highlight of the AutoComplete user input. It also demonstrates custom filter functions on more than one field in your dataProvider
- **AutoCompleteComboBoxDBFilter_FlexBuilderProjectArchive.zip**
 - This is a Flex Builder Project Archive for a project that populates the AutoComplete options from a database, using ColdFusion. The Project includes a table generation script for SQL Server

- **AutoCompleteComboBoxFreeEdition35.swc**
 - This is the Free Edition MX SWC compiled against the Flex 3 SDK.
- **AutoCompleteComboBoxFreeEdition4.swc**
 - This is the Free Edition MX SWC compiled against the Flex 4 SDK.
- **AutoCompleteComboBoxFreeEdition45.swc**
 - This is the Free edition MX SWC compiled against the flex 4.5 SDK
- **AutoCompleteComboBoxSparkLite.swc:**
 - The free edition of our Native Spark AutoCompleteComboBox compiled against the Flex 4 SDK.
- **AutoCompleteComboBoxSparkLite45.swc:**
 - The free edition of our Native Spark AutoCompleteComboBox, compiled against the Flex 4.5 SDK
- **FlextrasAutoCompleteComboBoxManual.pdf:**
 - Instructions on how to use the Spark version.
- **FlextrasAutoCompleteComboBoxReleaseNotes.pdf**
 - These are the release Notes. This is the document you're reading.
- **SparkDocumentationSamples.zip:**
 - Source code for samples defined in the manual.

Unlimited Domain Edition includes:

- All files in the Free Edition
- **AutoCompleteComboBoxSparkLiteSource4.zip**
 - This is a zip containing the source code for the Flex 4 Spark AutoCompleteComboBoxLite free edition.
- **AutoCompleteComboBoxSparkLiteSource45.zip**
 - This is a zip containing the source code for the Flex 4.5 Spark AutoCompleteComboBoxLite free edition.
- **AutoCompleteComboBoxSource3.zip**
 - This is a zip containing the source code for the Flex 3 Unlimited Domain Edition SWC. As of release 1.7 this is no longer updated.
- **AutoCompleteComboBoxSource35.zip**
 - This is a zip containing the source code for the Flex 3.5 Unlimited Domain Edition SWC.
- **AutoCompleteComboBoxSource4.zip**
 - This is a zip containing the source code for the Flex 4 Unlimited Domain Edition SWC.
- **AutoCompleteComboBoxSource45.zip**
 - This is a zip containing the source code for the Flex 4.5 Unlimited Domain Edition SWC.
- **AutoCompleteComboBoxUnlimitedDomainEdition.swc**
 - This is the Unlimited Domain Edition SWC compiled against the Flex 3 SDK. This is no longer updated, and provided as a courtesy.

History

Date	Version	By	Description
10/3/2012	2.5.1235	Jeffry Houser	<p>In Spark AutoComplete 4.5 Fixed bug where the escape key would blank out text without refiltering the list.</p> <p>Made sure that the drop down would close if nothing was in the text input</p>
3/30/2012	2.4.1163	Jeffry Houser	Replaced Developer Edition with Free Edition.
12/19/2011	2.3.1163	Jeffry Houser	<p>In MX AutoComplete (Version 4 and up): Added version compiled against Flex 4.5 Fixed bug where cursor location was not being set properly if a mouse was used to select items. Fixed 4.5 issue where border around TextInput would vanish.</p> <p>In Spark AutoComplete: Fixed Bug in Spark AutoComplete where selectedIndex and selectedItem would change during a copy operation.</p> <p>When setting the dataProvider to null; fixed bug where selectedIndex / selectedItem did not reset themselves automatically</p> <p>Stopped weird scrolling issue when you typed into the AutoComplete w/ Flex 4.5</p> <p>Mobile AutoComplete: Refreshed Mobile AutoComplete to mach our current Mobile release.</p>
6/4/2011	2.2.1040	Jeffry Houser	Added Mobile AutoCompleteComboBox to Unlimited Domain Edition.
5/7/2011	2.1.1005	Jeffry Houser	Created 4.5 Version of AutoCompleteComboBoxLite; Fixed a (4.5-only) bug that threw an runtime error when selecting an item from the drop down.

1/20/2011	2.0.975	Jeffry Houser	Created 2.0 Product Line in prep to ramp up the Spark version.
1/20/2011	1.7.975	Jeffry Houser	<p>Added Native Spark implementation AutoCompleteComboBoxLite</p> <p>Deprecated Flex 3 version.</p> <p>Fixed bug where errorString was not properly displaying.</p> <p>Fixed bug with positioning drop down if the drop down was opening up because drop down was at the bottom of the screen.</p> <p>Added code to automatically update drop down list if someone adds or removes items to the dataProvider.</p> <p>Fixed bug where drop down wasn't properly closing if traversing through drop down with arrow keys and then hitting enter while autoCompleteSelectOnEnter was set to true</p>
11/06/2010	1.6.948	Jeffry Houser	<p>Created Flex 3.5 Build b/c 3.5 changed the way the ComboBox dealt with the drop down. (<i>Curses, foiled again</i>). As such, I stopped updating the Flex 3.0 build.</p> <p>Added autoCompleteCursorPosition property</p> <p>Fixed bug where rowHeight on the drop down would slowly decrease until nothing was displayed.</p> <p>Fixed error if component was disabled and selectedItem or selectedIndex were set.</p> <p>Added support for setting the selectedItem.</p> <p>Prevented infinite loop if typeAheadText was set using its' current value.</p> <p>Fixed issue where focus out handler would fire on focus in.</p> <p>Added bug fix for this memory leak: https://bugs.adobe.com/jira/browse/SDK-25384</p>

8/31/2010	1.40.920	Jeffry houser	Fixed issue where autoCompleteTextInputStyleName was ignored.
3/29/2010	1.40.742	Jeffry Houser	<p>Compiled Flex 4 versions against Flex 4 SDK release build</p> <p>Fixed bug where changing the dataProvider caused selection issues</p> <p>If autoComplete is enabled, the text property will now return the text in the autoCompleteTextInput</p> <p>Added autoCompleteHighlightOnFocus property that will highlight the text inside the autoCompleteTextInput when the input receives focus.</p> <p>Added autoCompleteSelectOnEnter and autoCompleteSelectOnEnterIfEmpty properties. If the enter key is pressed, then the top item in the drop down will be selected.</p> <p>Added autoCompleteSelectOnOne property. If there is only one item in the drop down it will be selected.</p> <p>Added support for Restrict property in the autoComplete input.</p> <p>Made typeAheadTextValue a writeable property. Previously it was read only.</p> <p>Fixed bug when pressing an arrow key when nothing is in the dataProvider</p>
12/15/09	1.30.621	Jeffry Houser	<p>Fixed issue with setting selectedIndex to -1; autoComplete not updating</p> <p>Fixed various issues related to autoCompleteRemoteData</p> <p>Added version compiled against Flex 4 SDK included with Flash Builder Beta 2.</p>
8/7/09	1.20.598	Jeffry Houser	<p>Added autoCompleteResetIndex and autoCompleteRemoteData</p> <p>Added support for setting autoComplete values with selectedIndex</p> <p>Added autoCompleteSetTypeAheadText functionality</p> <p>Added autoCompleteSetOnEqual functionality</p>

5/27/09	1.10.459	Jeffry Houser	Fixed Display issue when DownArrowVisible was set to false and an item was selected. Added Additional Samples
5/8/09	1.10.458	Jeffry Houser	Modified ASDoc for Event Made sure AutoComplete Input width was modified if width was also modified Made sure AutoComplete Input was given focus if AutoComplete was enabled and focus was enabled. Fixed display issues related to focus Added bullet proofing to default itemRenderer . Added autoCompleteResetIndex property to allow for a different value to be selected when the AutoComplete is set Added autoCompleteRemoteData property to help with populating AutoComplete with remote data.
4/10/09	1.00.436	Jeffry Houser	Initial Release
